

CITY OF EDINBURGH CONSULTATIONS

Many of us are aware, via the press or an information leaflet delivered to our homes/businesses, or otherwise, of City Council consultations over changes that will affect those living or travelling within Corstorphine in terms of how we get around, parking etc. There have been five key consultations in February and March, the top two of which have closed and one closes midday on 14th March.

Further work on proposed schemes will be based in part on these community and business responses.

Current consultations

1 EDINBURGH CITY-WIDE PARKING PHASE 2. The survey closes on 14 March 2021 at midnight.
